Basketball South West was formed in 2004 to promote and develop the great game of basketball in the South West region of Western Australia.

The organisation has grown to become the premier regional body supporting the game of basketball in WA.

Basketball South West teams compete in the Basketball WA State competitions for Seniors and Juniors under the banner of South West Slammers.

Basketball South West has a proud history of developing players from Juniors through to the Seniors via a well structured pathway, and we are particularly proud of our contribution to our two National Basketball League stars Mark Worthington, Cameron Gliddon, Kate and Emily Fielding who came through the Slammers juniors.

Basketball South West would like to thank all of our sponsors for the 2022 season.

The Perkins Builders South West Slammers would not be in such a strong position on and off the court if it wasn't for every single one of our sponsors.

We encourage all our supporters to use these companies where possible, and give back to the businesses that give so much to us.
